Revised: 5/13/2020

NRTC has a minimum of one wash basin with hot and cold water, one flush toilet, and one bath or shower with hot and cold water for every six children of the same sex, or fraction thereof, residing within the facility.

1. NRTC has three sinks with hot and cold water, three toilets, three showers with hot and cold water on each of the four units, with a maximum of ten youth per unit. These bathrooms are located on the same units with the sleeping rooms. Bathrooms are situated so as to allow direct access to them without the necessity of passing through a bedroom.

Each bathroom is stocked with toilet paper, towels, soap and wastebaskets available for use.

Showers shall have nonskid surfaces and have enclosures or screens which afford individual privacy.

When more than one toilet is located in the same bathroom as such in the education wing and gym, each toilet is partitioned and include a door capable of remaining closed.
