Revised: 5/11/20

NRTC has two area specifically used for dining within the facility during mealtimes. The dining areas are located in our activity rooms and there are tables and seating places of sufficient size and number so that youth may eat together comfortably at one time. Male and female youth do not eat together. During meal hours, the dining area is used solely for the purpose of eating. Each dining area is equipped with tables and chairs appropriate to the age, physical condition and developmental stage of the youth who eat in the area.
