NRTC ensures that all necessary transportation is made available for implementing each youth's service plan.

All vehicles owned, rented or leased by NRTC and which are used to transport youth, are inspected annually and approved by the Ohio State Highway Patrol and continually maintained in a safe operating condition. NRTC maintains written maintenance records on all vehicles owned, rented or leased by it which are used for transporting youth. First aid supplies are placed in each vehicle owned, rented or leased by NRTC when the vehicle is used to transport youth.

NRTC keeps current documentation of automobile insurance for all privately owned vehicles used to transport youth in the facility. All privately owned vehicles used to transport youth in the facility are to be annually inspected and approved by the Ohio state highway patrol and continually maintained in a safe operating condition. First aid supplies will be placed in each privately owned vehicle when the vehicle is used to transport youth of the facility.

NRTC ensures that supervision appropriate to the number and ages of youth being transported is available in any vehicle used by the facility to transport youth.

In a vehicle which is required by law to be equipped with passenger safety belts, the driver and all passengers are to be properly restrained by a safety belt while the vehicle is in motion.
